## Workshop Objectives

*Participants in attendance will:*

- know what having property in the floodplain means and what property owners can expect in high water events;
- understand how changes to the shoreline can impact other nearby properties;
- learn the minimum regulatory requirements of the NFIP and the responsibilities for administering a community's floodplain regulations;
- be aware of actions that floodplain managers can take after a flood to make post-disaster recovery quicker;
- learn how to accurately complete Elevation Certificates;
- understand how the elevation information is used; and
- be able to use the Elevation Certificate as a tool for floodplain management.
